

WHAT'S AT STAKE

FOR HEALTHCARE JOBS IN THE NOVEMBER ELECTION?

Elections are especially important for us as healthcare workers.

The decisions made by our elected leaders have major consequences for our jobs and the people we care for.

FUNDING FOR GOOD JOBS AND QUALITY CARE

Healthcare jobs depend on federal funding from Medicaid and Medicare. When these programs face cuts, it causes layoffs, closures, and weakens our ability to win strong contracts.

✓ Kamala Harris is a champion for strengthening Medicaid, Medicare, and the Affordable Care Act, and will protect them from cuts.

✗ Donald Trump and his Republican allies would impose \$4.5 trillion in healthcare cuts over the next decade, including by eliminating the Affordable Care Act and its Medicaid expansion, and slashing Medicare through privatization.[1] This would drastically harm healthcare jobs and access to care for our communities' most vulnerable people.

WORKERS' RIGHTS AND PROTECTIONS

Having a union gives us the power to negotiate improvements to our jobs and to have a real voice at work. As healthcare workers, we need someone who fights for our interests, not for billionaires and big corporations.

✓ Kamala Harris is a champion for workers' rights. She supports strengthening overtime protections, safe staffing laws, paid family leave, health and safety rules, and making it easier for workers to join unions.

✗ Donald Trump and his rich donors, in contrast, are trying to destroy our hard-won gains. As President, he spent 4 years packing the courts with anti-worker judges, rolling back critical safety regulations, and opposing increases to the minimum wage. He even tried to repeal a law that prevents 16 and 17-year-olds from operating patient lifts in nursing homes with no training or supervision![2]
